

LOCAL MEN SEE LARGER RETURN FROM OIL WELL

Rock Island—Moline Syndicate
Drill Leasing Lease in
Brockbridge, Texas.

Mayor H. M. Schriver and Chief
Tom Cox bring back word from
Texas that export oil men predict a
flow of 5,000 barrels per day from
the well drilled by the syndicate of
Rock Island and Moline men. The
well came in at 1,000 and has since
increased to the 1,500 mark. The
crude product has a market value
in present of about \$3.50 per barrel.
Figure it out for yourself.
The bringing in of the Rock Is-
land well was attended by no un-
due excitement other than that
which may have been felt by the
partners in the enterprise who were
on hand at the time. It was har-
nessed just in time to prevent any
loss of oil as it burst forth. The
driller had just screwed in the last
bolt to the cap in anticipation of
the flow when it came.
The well has 76 feet of oil sand
beneath it. The drill has not gone
more than five feet into the sand at

a total depth of over 2,100 feet. The
experts say that the well will in-
crease steadily until the 5,000 mark
is reached.
The city of Brockbridge, Texas,
in which the well is located, is said
to be one of the most fertile
stretches of oil land in the country.
A blueprint of the town brought
back by Chief Cox shows wells here
there and everywhere. The city is
said simply dotted with them. The
total production for the 10,000
barrel mark daily. Everybody in
Brockbridge has money. In fact
so much of it that they don't know
what to do with it. Oil is talked
morning, noon and night. The chief
vouches for the statement that they
don't even know who was elected
president. The papers hardly refer
to any outside doings of the world.
Before oil was discovered in
Brockbridge and vicinity, the land
wasn't fertile enough to raise a hog.
Today it is putting up hogs coop
oil. The plot on which the Rock Is-
land well is drilled is owned by an
old lady. Besides the next day she
received for this lease rights, she
gets three-sixteenths of the oil.
Her return started last Thursday
when the flow came in.

CHURCH DEDICATED.
(Special to The Argus.)
Galesburg, Ill., Nov. 22.—Formal
dedication ceremonies were per-
formed yesterday afternoon at the
new church building of the Church
of the Nazarenes, congregation, on
the corner of South and First
streets. The congregation was or-
ganized here only last June, and
since that time has built the beau-
tiful new structure which will
honorably house its services, and
become thoroughly organized. The
dedication services were at 3:30
p. m., and a morning service at
10:30 and an evening service at
7:30 were also conducted.
Rev. M. F. Leonard of Topeka,
Kan., took the place of Rev. C. R.
Mastison, the regular pastor, on the
day of the dedication. The district
superintendent, Rev. Charles A.
Brown, was present during the day.
Special music, directed by Prof. S.
E. Carter, formerly vocal instructor
in Central Holiness university, Ok-
lahoma, Iowa, and now located in
Olivet university, Olivet, Ill., and
a fine program, outside of the three
ceremonies of the day, distinguished
this initial "meeting" in the new
building. The present organization
is the first group of Nazarenes to be
formed or to have a church in this
city.

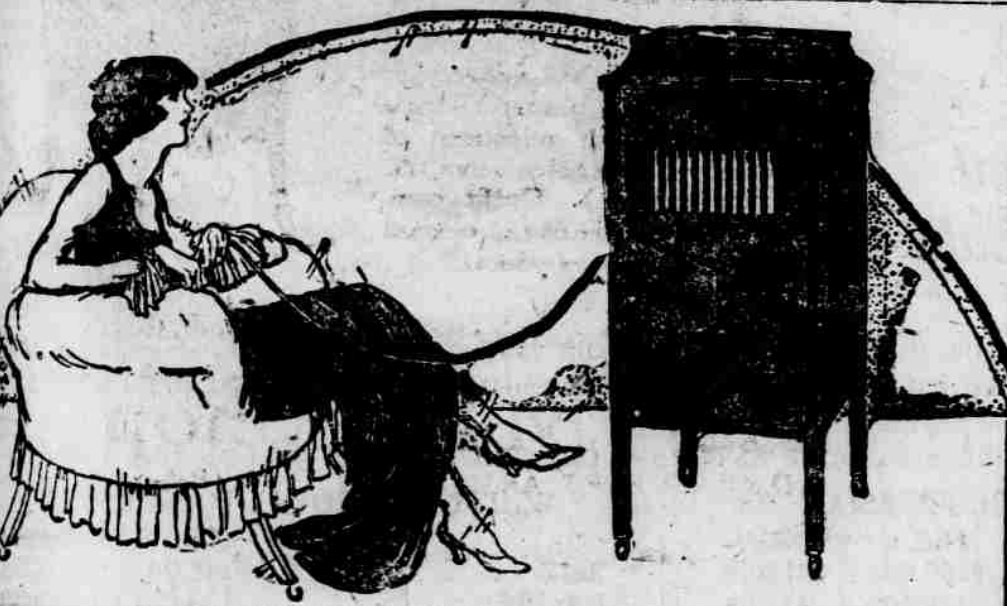

GROVE'S IRON TONIC STEEP.
For Pale Children. They love to
take it and it is better suited to ten-
der little stomachs than Iron Tab-
lets or Iron Pills. Absolutely
harmless. 75c.—(Adv.)

Frames Should Fit The Face

Correctly fitting
frames are almost as
important as correctly
ground lenses. There-
fore in this particu-
lar point to make sure
that the frames fit the
face properly.
The center of the
glasses should come
exactly opposite the
pupils of the eyes.
The glasses should not
be too wide or too
narrow. The bridge
should fit the nose so
well that wedging
will be impossible.

We are experts in
the proper fitting of
glasses and our skill
is at your service. If
the glasses you now
wear do not fit perfectly
bring them to us for
adjustment.
